

PROCUREMENT & OPERATIONS

Colby Quinn

Clarity for the work between teams.

I connect sourcing decisions, purchasing systems, and the people responsible for what happens next. My background spans healthcare purchasing, manufacturing sourcing, and construction-sales coordination.

PURCHASING LEADERSHIP

Led three buyers and a shipping clerk supporting purchasing for 77 corporate clinics at American Family Care.

SOURCING & MANUFACTURING

Supported production and R&D purchasing at Storyteller Overland, including specialized components, purchase and work orders, bills of materials, and inventory.

CONSTRUCTION-SALES COORDINATION

Helped lead an Invitation to Bid process rollout at CLP Systems, authored sales procedures, and managed quote and pipeline activity in Salesforce.

THE SCOPEGATE CONNECTION

Through ScopeGate Process Advisors, I apply that operating perspective to bid intake, estimating handoffs, and quote follow-up.

Let's talk about the work your team needs to move forward.
